OPERATORS ASK TIME OF MINERS

Are Unable to Agree Upon Them
Reply to Mitchell.

One Pennsylvania Mine Increases
Wages of Its Men to Retain
Them.

CRISIS TOMORROW PROBABLE

New York, April 9.—Many differences having developed among the anthracite operators as to the exact nature or extent of the counter proposition to be made to John Mitchell's proposal for arbitration of the differences between miners and the anthracite operators, the latter have asked that the joint meeting scheduled for this afternoon be postponed until tomorrow. The request was granted by the miners.

An Increase of Wages.

Wilkesbarre, April 9.—In an effort to keep the men at work and to encourage others to join them the Peja Coal company this morning advanced the wages, the men employed at washeries 10 per cent. These washeries were working last week.

May Return to Work.

Pittsburg, April 9.—There were no developments that disturbed the peace of the bituminous coal fields reported today. In the Pittsburg district it is expected that 90 per cent of the miners who have been idle will return to work tomorrow. The storm centers in other districts are growing more settled, and there is every evidence that the men at these points will return to work before many days.

The crisis will be reached Tuesday when the coal companies will begin the eviction of those miners who refuse to return to work.

Men are resuming labor gradually and the strike will not extend beyond three mines, it is said.

LUCK OF HOOSIER POET.

Gold Mine Within Nine Miles of His
Hotel Site.

Bloomington, Ind., April 9.—Gold is to be mined in Brown county, 25 miles from here, by a party of Italians headed by a civil engineer and an ex-Italian army officer. Attempts have been made before to secure wealth by gold mining in Brown county, but have not been successful.

However, the Italians claim that they have discovered a rich vein, and that they have secured the land upon which it is situated and will start work at once.

The proposed gold mine is situated about nine miles from the site where James Whitcomb Riley, the Hoosier poet, intends to build his summer hotel for authors.

ALLEGED WIFE MURDERER

Freed—Noted Case at New Albany,
Ind., So Results.

New Albany, Ind., April 9.—After deliberating for forty-six hours the jury which heard the evidence charging Rev. Ulysses G. Sutherland with the murder of his wife, returned a verdict of acquittal this morning. The woman was found dead and the husband was accused of being the murderer. The evidence at the trial was largely in behalf of the innocence of the accused and the court's instructions were to the same effect. The jury's delay in finding a verdict is not explained.

YELLOW FEVER IN LOUISIANA.

Well Developed Case of the Article
Discovered At Kenner.

Jackson, Miss., April 9.—Governor Vardaman has received a letter from Surgeon White in New Orleans stating that notwithstanding the reports to the contrary, a fever patient at Kenner, La., was suffering from yellow fever. Dr. White says he has seen the patient, and that there is no doubt that the case is yellow fever. He notified the governor of Mississippi, he adds, because he feels it his duty to do so.

Congressman Horton Dead.

St. Paul, Minn., April 9.—Rider H. Horton, representing this district in congress, died Sunday in the island Nassau, Bahamas, from Bright's disease.

HITS ORIENT ONLY IN SPOTS.

Free Silver Leader Going to the Holy
Land.

Lincoln, Neb., April 9.—In a private letter received today from William J. Bryan, written at Calcutta, Mr. Bryan says he expects to return home about the middle of September. His itinerary includes a trip from Bombay to Cairo, a journey to the Holy Land, Constantinople and St. Petersburg, reaching the Russian capital about the time the new regime in governmental affairs has been inaugurated.

Finger Print System Adopted.

Washington, April 9.—The war department has decided to adopt the finger print system of identification in the army, and all military posts, hospitals and recruiting stations will hereafter be equipped with apparatus for recording the digital impressions of all the men now serving under the flag. Officers as well as enlisted men will have their finger marks preserved for future reference. The finger print system was decided upon by a special board appointed for the purpose of providing an improved system of identification of recruits. It is far superior to the Bertillon system, the board concluded. It has been in successful use in India for a long time and is at present used by the police departments of several cities in the United States.

YOUNG MACHINIST PAINFULLY HURT

Arm Seriously Crushed by Being
Caught in "Jumper."

Party of Five "Hobo" Women Box
Car It Into Paducah Last
Evening.

MANY READABLE SHOP NOTES.

Clifford Fulmer, aged 18, the son of General Foreman R. E. Fulmer, of the local I. C. shops, met with a serious accident this morning at the shops.

The young man is a machinist apprentice and was working at a small machine known as a "jumper." He got his right arm caught in the machine and the wrist was crushed and the flesh badly torn and lacerated.

The young man was taken to the hospital where the injury was dressed. It is not thought amputation will be necessary unless complications set in. The injury is very serious, however.

Couple Known Here to Wed.

Mr. William Flowers, baggage agent for the local I. C., has received an invitation announcing the wedding of Mr. John Akim to Miss Katie Lawrence, the latter of Nashville. The wedding will take place tonight at 8 o'clock in Nashville and the couple will reside in that city.

The couple is well known here. Mr. Akim was for a year or more night baggage agent for the local I. C., and his bride is the sister of Mrs. C. G. Shepherd whose husband was day ticket agent for the road. Miss Lawrence often visited her sister here and resided in Paducah for several months at one time.

Mr. Akim is traveling for the Armour company out of Nashville, and news of the marriage will come as a pleasant surprise to their many friends here.

Five Women "Hobos" Arrive.

Genuine women "hobos" have made their appearance in Paducah, not one but several of them, and local I. C. officials are wondering what will come next.

Last night a party of car repairers employed in the shop yards were working on a "bad order" car which had just been brought in by a freight train from the South. The car was not too badly damaged to necessitate uncoupling and running in a siding, and the repairers "worked" it in the train.

Jackies were placed under one end of the car and slowly the hydraulic pressure lifted the end off its trucks. Slowly and cautiously the car door opened and the startled repairers stopped their work to watch developments. A light curly head was thrust out of the door and the repairers could hardly believe their eyes. Some even pinched themselves to see if they were dreaming.

"Say, what town is this, anywa?" the possessor of the head inquired. She did not appear to be particular

MAY CUT POLICE FORCE TO-NIGHT

Fire and Police Commissioners
to Hold a Meeting.

If Reduction Ordinance Passed By
Council Is Retroactive It Will
Be Enforced.

SOME TALK OF ENJOINING, ETC.

The board of fire and police commissioners will meet tonight in regular session at the city hall, and will take up the matter of cutting the police force to 18 men, exclusive of a chief, captain and lieutenant. The other business will be routine and unimportant.

A commissioner stated this morning that the matter of cutting the force had been informally discussed by members of the board and the inclination of the board seemed to be to abide by the law—to cut the force—now that the ordinance is effective.

"The police force will be cut, in all probability, tonight," he stated, "but it may be increased when the state law passed by the legislature is effective. If the ordinance becomes effective when passed over the mayor's veto and after publication, then it is reasonable to presume the state law is effective just as much after the 60 days after passage has expired. If the ordinance is retroactive, then the state law may just as legally be. If the police force can be cut by city ordinance, after the force has been appointed and bonded for the year, then the increase can as legally be made, it seems. At least this is how it seems to the commissioners."

It is understood that the city solicitor will be called upon for an opinion in the matter. The law will have to be decided one way or the other, and the solicitor is the proper person to decide for the boards. The matter as it stands is likely to cause trouble if the board of commissioners does take the stand intimated and may lead to legal complications.

Policemen and the two detectives have consulted lawyers—that is many have, and are preparing to take legal steps, they declare, to enjoin the city from removing them. Representative L. P. Head, who urged the police bill through the legislature, is quoted as saying he will himself enjoin the city from cutting the force after the time limit on the state bill has expired.

The action of the board tonight will be the hinge on which the entire matter will swing, and the result will be watched with interest.

One Hundred and Fifty Lives.

San Francisco, Cal., April 9.—The steamer Mariposa arrived from Tahiti, bringing additional particulars of the storm which swept the South Sea Islands last February. According to the latest estimates one hundred and fifty lives were lost and property damages amounted to a million and a half. Several small vessels were lost during the storm.

NORMAL SCHOOL

ONE IS TO BE LOCATED IN
WESTERN KENTUCKY.

Paducah Can Secure the Institution
If the Proper Efforts Are
Made.

A move has been set on foot among local educators and others interested in educational work to secure for Paducah one of the state normal schools. The move is yet in its infancy, but will be pushed hard and all forces brought to bear on the proper authorities in order that all aid possible be secured from city and county in securing the school.

Prof. E. G. Payne, principal of the High school, is one of the commissioners appointed by Governor Beckham, and he will leave Wednesday night to attend a meeting of the commission in Frankfort Thursday. He states that as far as any official action is concerned nothing has been done in Paducah towards securing the location of the state normal school for Western Kentucky, but that he has been spoken to by several individuals.

"The legislative law empowering counties to issue bonds for building colleges can be made applicable to this matter," Prof. Payne stated, "and I think would raise no question at all. If the county could be prevailed upon to issue bonds and buy a site or building to offer the state, I believe, as do others, that Paducah will be able to outdo all competition for the school. Bowling Green has a building and site to offer, and Paducah has not, but we have other advantages which cannot be offered by Bowling Green, and if the county will act favorably, I believe we can stand a good chance of getting the school here."

The meeting Thursday will be preliminary. It will be a meeting to organize the commission and outline plans. No definite action in the matter of selecting sites, etc., will be taken. The state commission will ask for bids, and the town having the best facilities and making the best offer will get the school for this end of the state.

BOILER EXPLOSION.

Towboat Hoxie Sunk in the Ohio
River.

Pomeroy, O., April 9.—Early Sunday morning the towboat H. M. Hoxie, while headed for port with a heavy fleet of empty barges, exploded her boilers at Portland, O., 34 miles above here, and sank, with the water over the hurricane deck. The boilers blew out forward and wrecked the forward end of the boat.

One man was knocked overboard and drowned and several others injured more or less.

The boat was owned by the Monongahela River Consolidated Coal and Coke company of Pittsburgh.

Effects of a Storm.

Dewey Station, Ill., April 9.—Four persons were injured, one house overturned and considerable damage was done to trees and roofs by a severe wind storm which swept over a small area Sunday. The electrical display accompanying the storm was unusually severe.

Tokio, Japan, April 9.—A new Japanese armored cruiser, the Ikoma, of 13,750 tons, was successfully launched today.

THE OCTOBERISTS WERE ROUTED

Additional Election in Russia
Won by Liberals.

Government to the Wall and Salva-
tion Alone Lies in Witte's Con-
stitutional Suggestions.

PEOPLE ASSERTING STRENGTH.

St. Petersburg, April 9.—Electoral colleges in twenty-eight of the fifty-one provinces in European Russia elected 176 members of the national parliament, about a third of the entire membership and returns received up to tonight indicate that the wildest hopes of the liberals have been realized. Constitutional democrats and other progressives everywhere gained a tremendous victory over the Octoberists and other conservative parties. As far as ascertainable nowhere did the Octoberists score a triumph. The majorities obtained by the radicals clinched the character of their victory.

One of the hopeful signs for the future is the character of many of the peasants elected. Before the electoral college began to elect members, peasants separately chose one of their number as a candidate. This provision was designed to appease the peasant and also was regarded by the government as insuring a conservative nucleus, but this calculation had been upset, for in almost every instance the peasants elected not only were progressive but the most highly educated among their class, a majority of them at least having high school educations.

In the Volga district and central provinces where famine and agrarian disorders have been greatest, the peasant vote was the most radical.

Sunday's results prove beyond a question that the calculations of the government have been rudely upset and that the opposition element will control the national parliament by decisive majority. Premier Witte's efforts to induce Emperor Nicholas to proclaim a constitution should now be greatly reinforced.

Another crisis plainly confronts the government, for the sweeping character of their victory undoubtedly will encourage liberals to push the government to the wall and it would seem that the emperor must yield to the entreaties of those who counsel final surrender by issuing a constitution to the people or dispersing the national parliament as soon as it assembles. There seems no alternative except the choice of one of these two courses.

Witte Wins Long Struggle.

St. Petersburg, April 9.—A panic has been created in government circles by the surprising strength developed by the constitutional democrats in the elections, which may bring immediate and dramatic consequences.

The issue between reaction and reform which has been hanging in the balance was unexpectedly precipitated by Premier Witte. The elections have greatly strengthened the premier's hand in his fight against the reactionists and he now feels strong enough to challenge Gen. Trepov and Minister of the Interior Durnovo and the entire reactionary cabal.

Less than a fortnight ago the premier was decidedly pessimistic and believed the majority in the lower house of parliament would be conservative, and that the entire program for reform might be overthrown. The results of the elections, however, convinced him the radicals will control the house and an attempt to thwart popular will as expressed by the ballot box would be a fatal blunder on the part of the government.

It was learned from an unimpeachable source this evening that the premier journeyed to Tsarskoe-Selo on Thursday to lay this view before the emperor and made another trip to Tsarskoe-Selo last night and was closeted with his majesty until after midnight. The impression abroad is that the success of the constitutional democrats will insure the success of the big foreign loan of which the government is in urgent need.

Struck By Tornado.

Fayette, Mo., April 9.—A tornado passed over Fayette Sunday doing much damage, many houses being unroofed and blown from foundations and barns and small buildings blown away. Reports from the county say the storm was general.

NOVEL POSITION FOR CHAFFEE.

May Head Society for Prevention of
Cruelty to Animals.

New York, April 9.—It is announced that Gen. Adna R. Chaffee, retired, has been tendered the position of president of the New York Society for the Prevention of Cruelty to Animals at the salary of \$6,000 per annum.

He has taken the offer under consideration, and will probably return his answer to the persons who made it when he reaches New York from the south, which will probably be next Tuesday or Wednesday.

Foraker for President.

Washington, April 9.—According to reports from Ohio, Senator Foraker's friends will formally open his campaign for the Republican presidential nomination by seeking to get through the convention this year a resolution so endorsing him. It was the Foraker Republicans in Ohio who in 1903, urged the Republican state convention to adopt a resolution endorsing the administration of President Roosevelt and declaring for him as the candidate of the party for the presidency the following year. They are entirely consistent therefore in their proposition now to present a resolution to the Republican state convention this year declaring for Senator Foraker for the Republican nomination for the presidency in 1908.

THE PADUCAH ON IMPORTANT SERVICE

Can Not Come to Paducah
This Spring.

Will Be Sent, However, When She Is
Relieved From the
Service.

TELEGRAM FROM NAVY DEPT.

The Sun wired the secretary of the navy last week asking him if the gunboat Paducah could be ordered to Paducah this spring, while the waters in the rivers were high to accept a silver service from the citizens of Paducah, and he replied that the Paducah is now on an important foreign service and could not therefore reach Paducah this spring.

In a letter to The Sun, received today, confirming the telegram, the secretary says:

"The Paducah is now performing very important service in the West Indies, and the department is unable, at this time, to fix any date when this service will terminate, nor is it able, on account of the lack of vessels, to send another ship to her relief. The patriotism and generosity which suggests the gift mentioned in your telegram is fully appreciated by the department, and at the first opportunity the gunboat Paducah will proceed to such port at or near Kentucky as circumstances will permit."

It has been hoped by the mayor and those interested in giving the silver service to the Paducah that she could come to Paducah this spring, but, as will be seen from the above dispatch, it will have to be some time later, probably this summer.

The finance committee of the council, to whom the matter has been referred, will have a meeting in a few days to decide what the city will give toward the service.

The fund now amounts to about \$600, and it is the intention to raise \$400 more by private contributions and have the city give \$500, which would give the fund \$1,500, which would purchase an elegant service.

The committee having the matter in charge is anxious, however, to complete the fund as soon as possible so the purchase of the service can be taken up as it will require some time to select the pattern and have it made.

"I think the matter should be pushed at once," said Mayor Yelise, today, when shown the letter from the secretary of the navy, "so we will have everything ready to make the presentation when the gunboat is ordered to Paducah, which may be at any time. Now that we have announced that we have a service for her, the department, and the officers of the boat may send her here sometime on very short notice, and catch us unprepared. Therefore, I say, we should arrange the matter at once."

A failure at practicing is often construed as a call to go preaching.

YESUVIUS HAS QUITTED DOWN

Volcano Not So Strong Accord-
ing to Reports.

Much Damage Already Done to the
Country Contiguous by Flow-
ing Lava.

NAPLES FILLED WITH REFUGEE

Naples, April 9.—Mount Vesuvius Sunday became more active than ever, and the panic spread to Naples. Two strong earthquakes which shattered the windows and cracked the walls were experienced. The entire population rushed to the streets in terror many persons crying, "The Madonna has forsaken us; the end of the world has come." No trace remains of the Boscoreale commune on the southern declivity of the mountain, where up to 48 hours ago ten thousand persons lived; and Torre Annunziata, on the shores of the Gulf of Naples, one mile southward, is almost surrounded by invading lava and has been evacuated by its 30,000 inhabitants. People were brought to Naples by trains, street cars, military carriages and steamships.

Similar means of transportation are employed to bring people away from Torre Del Greco Police and carabinieri are guarding the abandoned house, and several members of the government are also there. The work of succor is hampered owing to delays to every service which is interrupted by red hot stones thrown to a height of 3,000 feet and falling on the tracks. As yet it is impossible to count the craters that have opened and from which streams of lava have floated down on the beautiful, prosperous and happy land lying southeast of the shores of the Gulf of Naples.

The atmosphere is heavily charged with electricity. Now and then flashes of lightning are blinding, while detonations from the volcano resemble those of terrible explosions. The observatory has been destroyed and Sig. Matteucci, the director and employees had narrow escapes. They passed last night in the darkness save for frequent flashes of lightning as the gas works and electric plants also were destroyed. The restaurant of the Funicular railroad, too, has been obliterated. Prisoners in jails on the mountain side went mad with terror and mutilated and were only partly quieted by being brought here, but their fears have been communicated to the prisoners here, who may rebel at any moment. The situation is critical.

Breathing is momentarily growing more difficult because of poisonous fumes and smoke while hot ashes which are still falling tend to make life a burden.

Though there is much misery up to the present time there have been no fatalities except at Portici, where an old woman died, supposedly of fright.

Early Reports Confirmed.

Naples, April 9.—The eruption of Mount Vesuvius is becoming alarming. The inhabitants of Naples are fleeing from the city. A large number are going towards Rome. Cladders from the fiery mountains have fallen in some places to depths of three feet, stopping street traffic and paralyzing business. The suffering of the poor is appalling.

The Volcano Suddenly Moderates.

Rome, April 9.—The latest news received concerning the eruption of Vesuvius is that the volcano has suddenly moderated and the showers of ashes which have been falling several days have ceased. Advice from Naples say one hundred and fifty thousand refugees are there and that the number of dead from the eruptions is estimated at fifty.

The Tobacco Bill Has Little Chance in Senate

Although the bill to allow farmers to sell their leaf tobacco without paying revenue tax now levied was unanimously passed by the house there is little probability that it will become a law, says a Washington special.

The reason for its chance of life being slender is that Senator Nelson W. Aldrich, of Rhode Island, who killed it after the house passed it last year is said to object to it for the same reasons and in the same degree this year.

The tobacco bill was introduced in several forms by different representatives. John Wesley Gaines, of Tennessee, and Ollie James of Kentucky, were the principal champions of the bill this session, but all of the members of the delegations from Tennessee, Kentucky and Virginia were interested in its adoption. After considering the several bills the house committee on ways and means reported a bill to the house and it was passed without division.

The farmers of the tobacco producing states want the law passed. The tobacco trust does not want it passed. Nelson W. Aldrich is the chairman of the senate finance committee, corresponding to the ways and means committee in the house. Senator Aldrich went to Europe last year leaving a large number of anti-trust measures hung up in his committee, and the tobacco tax bill, among them, failed to be reported.

Senator Aldrich, the father-in-law of John D. Rockefeller, Jr., is described in an article by David Graham Phillips as the chief agent of the trusts—the tobacco trust among them—in the senate. He is at least in sympathy with the aims and objects of a number of the most powerful "interests." His position as chairman of the finance committee is one of power. To snuff out the life of such a measure as the tobacco tax bill is to Senator Aldrich a mere trifle—an incident in the execution of a program of slaughter among such measures as are objectionable to Rockefeller enterprises, or to the various "interests" represented in the senate. Senator Daniels of Virginia, and Senator Aldrich are members of a subcommittee of the finance committee which is considering the tobacco bill. Senators Blackburn and McCreary, of Kentucky, and

Frazier and Carmack, of Tennessee, are among those who are actively advocating a favorable report, but there is every probability that the history of the bill at the last session will repeat itself.

It is not difficult to get an anti-trust measure through the house. The trusts do not worry with both houses when the smaller of the two, numerically, suffices to put to sleep any legislation which militates against trust interests, and when the house is much more afraid of running counter to public opinion than the senate. If the house sends over an anti-trust measure which can be carefully and scientifically emasculated in the senate that method is most frequently resorted to. In the case of a simple bill like the tobacco bill a silent death in the committee in which Senator Aldrich is Lord High Executioner is deemed preferable.

HEALTH IS YOUTH.

Disease and Sickness Bring Old Age. Herbine, taken every morning before breakfast, will keep you in robust health, fit you to ward off disease. It cures constipation, biliousness, dyspepsia, fever skin, liver and kidney complaints. It purifies the blood and clears the complexion.

Mrs. D. W. Smith, Whitney, Tex., writes April 3, 1902: "I have used Herbine and find it the best medicine for constipation and liver troubles. It does all you claim for it."

I can highly recommend it. 50c. Sold by Alvey & List.

To Talk on Better Roads.

Friday night County Judge R. T. Lightfoot will speak at New Hope on better county roads, launching a plan into operation with a view of interesting farmers in building better roads. Roads are now built under an expense borne half by the county and half by the farmers. It is thought by a series of speeches each week in different portions of the county the farmers can be prevailed upon to take more pride in their roads.

SPECIAL MESSAGE

TO CONGRESS IS BEING PREPARED BY PRESIDENT.

He Wants Legislation That Will Make It Possible to Prosecute Trusts.

Washington, April 9.—The president is preparing a special message to congress on legislation to make it possible to prosecute persons who enter into a conspiracy for the restraint of trade. The administration has decided that there can be no appeal from the decision of Judge Humphrey, of Chicago, that the beef trust magnates cannot be prosecuted individually and that legislation has not kept pace with modern varieties of crime.

Since the decision of Judge Humphrey Attorney General Moody, Solicitor General Hoyt and all the assistant attorney generals have been searching the statute books for some law which would enable the government to prosecute the packers criminally. They have been unable to find such a law, and it is held that if an appeal should be taken the packers will have been twice in jeopardy for the same offense. This is in violation of the constitution.

ONLY FOUR INNINGS PLAYED.

Yesterday's Game of Ball Checked by the Rain.

The first baseball game of the season was witnessed by a large crowd at Wallace park yesterday afternoon. The game was played between a team partly composed of professionals against an amateur team. A good crowd was out.

The contest lasted only four innings, being stopped by rain, and was won by the professionals by a score of 4 to 0. Dick Brahe pitched the first three innings for the victors, and George Ripley pitched the last. The amateur battery was Hart and Gourieux. Jimmie Connors caught for the professionals and Charlie Brown, formerly president of the league, umpired.

The Paducah Indians are coming in rather fast now and all will be here by the 10th. The ground is being placed in good condition and the park will be fit for regular practice in two or three days.

Those of the Indians who are here now are Wilgus, Connors, Wetzel and Miller.

DISTINGUISHED VISITORS.

The Wisconsin Visitors to Shiloh Park Return Home.

Governor J. H. Davidson, of Wisconsin and his staff and a party of several hundred veterans of the Civil war, passed through Paducah this morning en route home after visiting the Shiloh battlefields and witnessing a dedication of Wisconsin monuments there.

Gov. Davidson and party passed through the city last week en route to the famous battlefield, and took the boat out of Paducah. The party came here on a special train over the I. C., but did not have this convenience in leaving. The party arrived last night on the Clyde and took the 9:30 train to Cairo this morning, where they will catch the fast Chicago flyer for home. A special coach was coupled to the train here for the accommodation of the party.

THE FINNEY DOCKS.

Tom Murray to Take Charge and Enlarge Them.

Mr. Thomas H. Murray, formerly superintendent of the Paducah marine ways, has accepted a position as superintendent of the Finney docks in Mechanicsburg, and will at once enlarge the docks.

Mr. Murray was for three years with the marine ways company, and proved a capable man for the place, making an enviable record in the work and number of boats pulled out for repairs. He will add two sections to the docks, making the capacity sufficiently large to dock any ordinary size boat. The docks were originally built for docking barges and small craft.

Notice to Contractors.

Notice is hereby given that sealed bids will be received by me in behalf of the county, at my office in the court house, on Saturday, the 14th of April, 1906, at 10 o'clock a. m., for the purpose of furnishing to the county gravel for repaving the Hinkleville and Lovelaceville gravel road. The contractor will not be required to spread the gravel, but the same will be received by the county's inspector upon the road as delivered. The bids are expected to be received upon the yard as to the furnishing of said gravel.

The undersigned reserves the right to reject any or all bids.

Dated April 5th, 1906.

FOUND GUILTY

WILLIS MOUNT CASE SETTLED SATURDAY AFTERNOON.

Defendant Gets 17 Years for Manslaughter—Jury Out Two Days and Nights.

The jury in the case of Willis Mount, charged with murder, returned a verdict Saturday afternoon at 4:30 o'clock finding the defendant guilty of manslaughter and fixing his punishment at 17 years in the penitentiary. The jury took the case at 5 o'clock Thursday afternoon and had been out two days and two nights before an agreement was reached. The jury stood unanimous as to Mount's guilt, but differed as to the punishment. It is understood the jury stood 11 for voluntary manslaughter and a 21 year term, while one stood for but five years.

Saturday at noon Judge Reed called the jury into court and his instructions served as an impetus to a speedy agreement. The jury was told that he would not discharge it before Monday morning, and would wait its pleasure and be ready to receive a verdict at any time until the limit expired. The jurors rather than remain cooped up until Monday struck a compromise.

The Case.

The Mount case has been one of the hardest fought in the annals of McCracken circuit court history and it has had three trials. The first trial resulted in a hung jury and the second in a verdict of guilty and a 21 years' term. The appellate court granted a new trial and it resulted as above. Mount's attorneys state they will move for a new trial as soon as it is possible to prepare the necessary papers.

The Crime.

Mount is charged with the willful murder of Willis Edward Nutty, a jockey, in a gambling room over the "Stag" saloon on South Fourth St., half a square off Broadway. The crime was committed on Sunday night October 18, 1903. Nutty was considered "out of his class" by Al Phelps and other gamblers in the room, and they refused to play with him. Mount's mind was inflamed with intoxicants and he interposed in the argument. He was lying on a bed at the time the quarrel began, and jumping up asked Nutty what he was "going to do about it." Nutty looked at Mount and replied, "O I know you, Willis Mount; you look like 30 cents to me." This seemed to anger Mount to an uncontrollable degree, resulting in his pulling his pistol and firing with fatal results.

The Jury.

T. A. Greenwell, George W. Harris, J. G. Miller, W. R. Hall, J. T. Denton, W. H. Adams, C. F. Ablett, S. R. Jackson, C. E. Ellenwood, D. H. Jeffords, C. R. Grear, J. H. Parthing.

The Verdict.

"We, the jury, find the defendant guilty of manslaughter, and fix his punishment at 17 years at hard labor in the penitentiary."

Signed: J. H. FARTHING,
One of the Jury."

The Attorneys.

Mount was first represented by Attorneys T. E. Moss, Sr., and Jesse Moss, his son, and Hal S. Corbett, of the city, and Sam Crossland, of Mayfield. The case was first prosecuted by W. F. Bradshaw, then commonwealth attorney, assisted by Eugene Graves, then county attorney. This trial resulted in a hung jury.

The second trial was conducted by Commonwealth Attorney John G. Lovett and County Attorney Eugene Graves, Mount having the same attorneys.

The third trial brought changes in Mount's attorneys and also in the prosecution's array of legal talent. Major Moss had died and Eugene Graves had gone out of office. Nutty's relatives had employed Attorney Fred Young, of Metropolis, to assist the prosecution, and Eugene Graves, the former prosecutor, had been employed by Mount.

A Dandy for Burns.

Dr. Bergin Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommend it to my friends, as I am confident there is no better made. 'It is a dandy for burns.' Those who live on farms are especially liable to many accidental cuts, burns, bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency." 25c, 50c and \$1.00. Sold by Alvey & List.

The Sewerage Extension Question.

The sanitary committee of both boards will meet tonight for the purpose of opening bids from sanitary engineering experts who propose to take charge of the West End sewerage extension and perform all preliminary work. It is thought this will be cheaper and better than employing an engineer to work at a salary, the first idea of the boards.

I. O. O. F. MEETING

MORE ARRANGEMENTS FOR INTERSTATE GATHERING ARE MADE.

Formation of Parade and the Line of March Decided Upon Yesterday.

Arrangements for the big Interstate meeting of the I. O. O. F. are rapidly being perfected. Yesterday another meeting was held by the arrangement committee and the grand marshal, his deputies, the parade and other matters were definitely outlined.

The Grand Marshal.

The committee on arrangements selected Mr. Charles Smith for the position of grand marshal. His deputies will be Messrs. Gus G. Singleton, Pete J. Beckenbach, Henry Seamon and Jule G. Switzer.

The line of march for the enormous parade, which will doubtless eclipse anything ever seen in Paducah in the parade line, was decided on and will be as follows:

Formation of Parade.

Fire department on North Seventh facing Broadway.

City officials, municipal board members and police force on South Seventh facing Broadway.

All Daughters of Rebekahs, on South Sixth facing Broadway.

Paducah lodges, on North Fifth, facing Broadway.

All visiting lodges, on South Fifth facing Broadway.

Line of March.

The parade will march down Broadway to Second street, south on Second to Kentucky avenue, west to Third street, south on Third to Jackson street; west on Jackson to Fifth street; north on Fifth to Madison street; west on Madison to Ninth; south on Ninth to Broadway; east on Broadway to Fifth; north on Fifth to The Kentucky, where the parade will break.

Reception Committee.

Mr. Gus G. Singleton was appointed chairman of the reception committee and will begin at once with the committee arranging for the reception of the hundreds of guests. He will see to the hotels, accommodations in private families and look to other conveniences for the guests.

Some Curious Hold-Ups.

Most countries are not familiar with the masked bandits of the west who "hold up" trains, but railroad men all over the world tell marvelous tales of beasts, birds and fishes that have held up traffic as effectually.

Animals are of course most often disturbers of traffic, but these are not always livestock which stray from the fields on the tracks. In Canada, for instance, stags often run before a train till they drop from exhaustion. And in Siberia it happened at least once that while an engine was running at slow speed a bear sprang on the tender and attacked the engineer. Fortunately the man was able to drive him back to the tracks where he was caught under the wheels and so injured that he was easily despatched.

In India traffic is frequently interrupted by all kinds of creatures, from elephants to insects. Probably the Uganda railway is more often disturbed by animals than any other.

Lions especially seem to have a particular antipathy for trains and frequently "hold-up" one of them. One beast which was known to have killed 17 persons attacked a train not long ago. But, as the railway company provides ammunition and weapons for just such occasions, the beast was shot. Ostriches often cause delays on the South African lines. They have a coy way of sticking their heads in the sand ballasting of the track, and it is necessary either to stop the train or to run over a bird, which may be a valuable possession, escaped from a nearby ostrich farm.

In tropical countries insects often succeed in holding travel at a standstill. The white ant accomplishes this by destroying the wooden portions of the tracks. To overcome this difficulty sleepers of iron or steel are substituted and the manufacture of them has become a considerable industry in the north of England and Scotland.

A wild swan kept an important train at a standstill for some hours. It had become entangled in the telegraph wires in such a way that all communication was stopped and it was some time before the cause of the trouble was located and the bird was released.

One would wonder how live fish could interfere with moving trains. It not infrequently happens that they are sucked into the watering apparatus for locomotives at country stations. Eels and trout of considerable size have often been caught in this way. In India during a recent flood, a trolley car was stopped by a large fish. The water had risen in the streets to the height of the car wheels, and the fish, swept along by the current, had become jammed between the spokes of a wheel so that it could not turn.

Women seldom mean it when they kiss each other. The average women would rather bite a piece out of the other's complexion.

Hanging Delayed That Condemned Man Might Eat His Dinner

Arkansas perhaps has the only case on record where a hanging was delayed to let the condemned man make a two hour speech and also stayed that he could then eat his dinner. The facts are more fully told in a Danville, Ark., telegram, along with the conviction of the man and his crime, as follows:

"J. W. Ince, twice sentenced to die on the gallows for the murder of his wife and three children near Whiteley last spring was Wednesday executed. The news had spread that Ince intended to make a speech on the gallows and the largest crowd in the history of Danville was present to hear what he might say."

"He was led to the gallows shortly before 11 o'clock and talked in a rambling sort of way till after 1 o'clock. He stated among other things he was prepared and was glad the governor had refused to commute the death sentence to life imprisonment, because all that he had dear on earth, his wife, and three babies, were gone, and there was nothing left to live for."

"He said he could not tell why he had committed such a horrible crime then spoke feelingly of how well he loved his wife and children and said some evil influence had hold of him, which he could not resist."

"Ince appeared to be in the very best of spirits, and occasionally smiled broadly at some seeming hit which he had made in the course of his speech. During his speech he referred to the political situation in Arkansas."

"After concluding his speech Ince requested that he be permitted to eat dinner before he died, and Sheriff Briggs took him back to the jail, adjoining the stockade, and gave him his dinner, which he heartily ate, as if nothing was wrong. After eating dinner, he was taken again to the gallows, and at 1:30 o'clock the blackcap was adjusted and he was hanged without a hitch."

"Ince will be buried in the cemetery beside his wife and children. tery at Danville. He requested to be buried there, but this request could not be granted on account of objections from her relatives, and during his speech on the gallows he said he regretted this very much."

"The crime for which Ince was hanged is without parallel in the criminal records of Arkansas. On the night of March 5, 1905, in his home, near Whiteley, Yell county, with an axe Ince split the skulls of his sleeping wife and three children, the latter ranging in age from 4 months to four years, killing them instantly. The crime was not discovered until the next morning. Meanwhile Ince walked to Danville, a distance of 12 miles, and told the authorities of the murder. He was taken to the scene of the deed, and he then admitted his guilt, but gave no explanation of his brutal act."

"Great indignation was caused by the quadruple murder, and after Ince was taken into custody and placed in jail at Danville, there was much talk of lynching him. A special term of circuit court was speedily called, however, and Ince was indicted and tried at Danville within three weeks after the commission of the crime. A plea of insanity was presented in his behalf and expert testimony was adduced along this line."

"In the opinion of the jury, however, Ince was sane when he committed the crime, and he was convicted and sentenced to be hanged on May 4. His attorneys then took an appeal to the supreme court and that tribunal remanded the case for a new trial and a further inquiry into the question of sanity."

"Ince was kept in the Danville jail and came near escaping twice, pending his appeal to the supreme court. His second trial took place last fall

at Dardanelle, and after the exhaustion of every effort by his able counsel, he was again adjudged guilty and given a death sentence. Again he appealed and the supreme court this time affirmed the conviction. This was in February, and as soon as the supreme court's mandate was transmitted to him, Gov. Davis fixed the day of execution of Ince."

"Efforts to secure a commutation of the death sentence proved unavailing, the governor refusing to interfere with the finding of the courts. Since last fall Ince has been confined in the penitentiary at Little Rock for safe keeping."

GUYING CAUSED A ROW.

The Paducah Excursion Made Lively This Way at Smithland.

The first river excursion of the season was run yesterday afternoon by the steamer Dick Fowler to Smithland. It was marked by a very spirited rock fusillade at Smithland, windows being broken out of the boat's cabin and several passengers slightly injured by the flying missiles.

The boat left Paducah at 2:30 with about 200 on board. The weather was windy and a rain set up just before the boat landed. A number of passengers remained aboard, but some went ashore. Some boys who remained aboard indulged in a "rag chewing" contest with boys on the bank. The "guying" became so heated that some of the boys aboard the Fowler began to throw coal at those ashore. This started the trouble in earnest and rocks, pieces of brick and everything not tied down began coming towards the boat. Passengers flocked to the other side to safety and one or two women were struck by the rocks in trying to get away. Fortunately they were uninjured except for slight bruises. Boat officers quieted the disturbance but not until several windows had been broken out on the boat and a panic created among the excursionists.

The boat left Smithland shortly after 5 o'clock and arrived at Paducah about 6:15. This incident was the only unpleasant one attending the initial excursion of the season.

Daily Thought.

"The saddest people in the world are those who are always fighting against sorrow."

The extra session of the Illinois legislature which gathers tomorrow, will be short lived unless it is an unruly body. The decision of the state supreme court as to the constitutionality of the state primary law, under which a ticket was about to be chosen, made amendments or a repeal necessary, and the state administration was in favor of the amending but against repealing, hence the extra assembling of the legislature. It is announced that a bill which fully meets the objections of the supreme court to the one voted upon has been prepared and will be ready for presentation to the legislature, which should pass the new act. The party, however, is somewhat at difference over the primary law and the ticket which may be chosen thereunder and just what may be the developments is not clear.

There is much comment over the socialist vote in the late contests in Chicago and Milwaukee particularly. The vote in each of these two cities was surprisingly large and the press and politicians are wondering what it means. The socialist vote is significant of but one particular fact and that is, the people are tossing their heads in chasing after ideal dreams. It is clear these visionary voters, who harm only themselves, need to do more serious thinking than they have been indulging in. This is a government of the people and it will so continue, and sound principles and not fallacies will ever have sway.

The present rule in Russia totters unless the people are appeased. There is no other solution to the elections just held in the empire, if cable reports are reliable. The people have asserted their strength at the polls in a way not to be longer treated with scorn. Witte's demand for a constitutional government even may fail, but it seems the country's only salvation short of an iron rule after another revolution is overcome, if the second one can be squelched. The outlook for Russia is gloomy, though it may be there is a silver lining to the dark cloud now hovering over the land.

The approaching democratic state convention of Tennessee will be a regular "Kilkeppie cat fight." There is hardly a county delegation which is not to be contested. Under such unusual conditions even in a democratic state convention the "persimmon" is evident, will not go to the man with the longest pole, but to the best gang at knocking out.

The millinery display being about over, spring will now settle down to regular order of things. The mil-

linary openings are veritable "red rags" to Miss Spring as well as to the average "Mr. Husband."

Pittsburg has an epidemic of typhoid fever. The number of cases reported daily reads like the returns in a yellow fever infected locality, both as to number of cases and the number of deaths. The health officers of Pittsburg, are unable to cope with the spreading of the disease.

President Roosevelt is going to send a special message to congress. He wants a law under which the trusts can be reached and made to be good. He should have no trouble in securing this law for.

What has become of the request of the board of public works that it be allowed to plant shade trees along the streets that have been improved? It is time to be setting them out right now.

Is Apostle Dowle "nitty" or is he "nutty"? The country has settled the last issue in its own mind, but the former lies with the future action of the Zionites.

Dowle should cool down before he reaches Zion City. Many a man has lost his battle by entering it in the wrong form.

LAWYERS AND LAWMAKING. (Owensboro Inquirer.)

A recent plea has been made for the simplification of the legal language, to deprive it of its circumlocutions, and reduce its technical verbiage to plain Anglo-Saxon, so that the way-faring man, though a fool, may understand it. These sonorous Latin terms and devious of procedure are a heritage from the early Anglo-Norman courts, which by enshrouding the real meaning of the law in a cloak of obscurity, have tended to make it more difficult of comprehension, and to inspire ordinary people with an awe of its profundity. If shorn of technicalities and put in plain every-day terms no law should be beyond the comprehension of the average man.

The above thought is emphasized by the manner of procedure and enactment of laws in our lawyer-ridden congress where legislation is retarded by devotion to forms and precedents. A measure may be desirable, and fit the necessity that calls for it, but it is hampered by the other 359 members in the house, and sent to the senate where the 90 wise men try to improve it, with the result that when it goes back to the house with the various amendments tagged on to it it would be a wise parent indeed who knows his own offspring.

One of the defects of the composition of our congress is the predominance of lawyers in both branches. In the house of representatives out of 390 members, 239 are lawyers, while fifty out of ninety senators also belong to the legal profession. The English look at a preponderance of lawyers in parliament as undesirable. As is well known, members of parliament receive no salary, and one of the arguments against it is that "One certain outcome would be a large increase in parliament of glib unscrupulous young lawyers, anxious to use parliament as a stepping stone to their own achievement."

This does not mean that lawyers are less desirable than any other profession, but the fact is that an assembly making laws for a nation should represent every class of people, instead of over half of each great body being of the legal profession. This preponderance of lawyers has a natural tendency even with the highest aim in view, to clothe measures in so-called legal language, until the enactors themselves cannot tell whether they are constitutional or not.

The question of the number of lawyers in our national legislative body would not appear so important were it not that the most eminent of the profession today seem to devote their best efforts to showing their clients how they may safely break the laws and illustrating the old saying, "fools make laws, and wise men break them."

LOVING CASE AT SPECIAL TERM

This Seems to be The Opinion In Court Today.

Owing to Absence of Several Important Witnesses the Defense Is Not Ready.

COURT TRANSACTIONS TODAY.

The H. H. Loving case for the alleged murder of H. A. Rose will not be tried this term of court, from every indication, but will come up during a special term of court to be held in June. Although this matter has not been definitely decided on every thing points that way.

The Loving case was set for trial this morning, but the attorneys asked for more time in which to prepare an affidavit for continuance. The affidavit was prepared this morning and sets up the facts of the absence of important witnesses for the defense. The witnesses are V. J. Blow, J. B. Gilbert, P. E. Gilbert, James Lambert, Prof. H. F. Lyon and Will Hamilton.

The affidavit will be presented this afternoon and will require little if any argument. The defense will declare it is not ready and if the case is tried the commonwealth will have to admit the affidavit, which it in all probability will not do.

The prosecution announced ready this morning, having all witnesses here except V. J. Blow, who is also claimed as a witness for the defense, it is seen.

If the case is continued it will mean a special term of court in June, Judge Reed stating this morning that he had other matters which he would bring up at the special term.

At press time the affidavit was still in the attorneys' hands but will be filed before adjournment of court.

Jurors Excused.

R. C. Farthing, R. L. Fox, J. C. Martin, L. B. Oelivie, Arch Sutherland and W. J. White were today excused as petit jurors and H. C. Hines, A. N. Bugg, J. M. Bell, J. Henry Smith, R. N. Phillips and W. E. Dickson substituted.

Judgment for Sale.

In the case of Thompson, Wilson & Co., against F. G. Rudolph, administrator, a judgment for sale was filed.

Gave a Worthless Check.

H. Sulte, alias Shulte, white, pleaded guilty to obtaining property by false pretenses, and was given one year in the penitentiary. He pleaded guilty to securing coal from Johnston-Denker Coal Co. and giving a worthless check for it. He was indicted on the charge of securing clothes from the Weille establishment the same way, but this indictment was dismissed.

The Police Court.

Bert Roberts, a boy, was held over this morning in police court for grand larceny, the defendant waiving examination, and his case will go directly to the grand jury, which is now in session.

The boy is alleged to have stolen a bicycle from Clyde Baker, a Postal Co. messenger boy, and the bicycle was found under the cover of his mother's bed, where it had been hidden by the woman who first refused officers admittance when they went to make a search of her house. The mother was held over to the grand jury, without an examination, for receiving stolen goods. It is not known what action will be taken in the mother's case. The son was caught Saturday night after a lively chase up and down Broadway.

The case against George Farrell, charged with maliciously assaulting Will Hamilton, was continued. Hamilton not being able to attend court Hamilton has been out once or twice, but is said to have suffered a relapse.

Other cases were: Walter Wolf, John Ayers, white, drunkenness, \$1 and costs each; Frank Crane, white, using insulting language, continued; James A. Warnick, white, drunk and disorderly, \$3 and costs; Gertrude Chappel, colored, drunk and disorderly, \$20 and costs; Gus Torian, colored, disturbing a lawful assembly, \$20 and costs.

Deaths.

W. A. Gardner deeds to Henry Buck, for \$120, property near 11th and Jones streets.

Geo. Bernhard deeds to Helena, Evitts, for \$850, property on North Eighth street.

F. M. Fisher deeds to Henry Bailey, for \$2,750 property on South Fourth between Clark and Adams streets.

A. A. Atkins deeds to G. W. Edwards, for \$850, property on Broadway.

The Toilet Guaranty company

deeds to Frank Boone power of attorney.

County Court.

County Judge R. T. Lightfoot convened county court this morning but there was little business before him. The settlement with administrators, guardians, etc., constituted the business of the day's session.

Got One Year.

John Alexander, colored, charged with maliciously cutting his wife, was found guilty and given one year in the penitentiary this morning.

Magistrates' Courts.

Fletcher Terrell, of the Kentucky stock yards on South Third street, was fined one cent and costs in two cases Saturday afternoon in Justice Emery's court, for using abusive language towards Lee Crenshaw and threatening Attorney Mike Oliver. Crenshaw and the defendant got into a dispute resulting from an unsatisfactory mule sale. Crenshaw has filed a suit in McCracken circuit court to recover damages because of the alleged fraud practice in the mule transaction.

Mac Dowell, white, was fined \$2 and costs for mistreating his wife. In Justice Bleich's court Saturday.

Justice J. H. Burnett this morning called his docket but did not try any cases. His court docket this term is small.

Bankrupt Court.

An order in the case of the Evansville Brewing Co. against H. T. Hessig was made Monday authorizing a sale of fixtures in a saloon at 118 South Third street to satisfy a debt. The brewing association holds a mortgage on the fixtures and Hessig was the last of many to assume responsibility.

An order of compromise in the claim of W. N. Levan against H. T. Hessig was filed today. Levan claimed \$70, and the compromise is for \$52.

Desk Assistant.

Miss Helene McBroom has been appointed desk assistant to Miss Mayme Baynam, librarian at the Carnegie library. Miss Baynam and her regular assistant, Miss Ruby Corbett, will be for several weeks cataloguing books.

Was a Sneak Thief.

Will Roy, colored, pleaded guilty to obtaining money by false pretenses, and got one year in the penitentiary. He stole a portion of a diver's outfit from the Paducah Dry Docks and sold it to Ackerman, the second hand man, for \$1.

License to Wed.

Charlie McDonald, age 22, of the city, and Dora McClure, age 23, of the city, colored, were licensed to wed today.

Motion Was Overruled.

Judge Reed this morning overruled the motion made by the defense to quash the indictment in the case of Henry Holloway, colored, charged with the murder of George Travis, and the case will go to trial this term, probably.

Attorneys Campbell & Campbell were employed by the defense and entered the motion last week and argued it before the court Friday. They alleged that the Fourteenth amendment to the United States constitution, provided against discrimination in court procedure, and attempted to show that Holloway had been discriminated against in the selection of jurors, no colored men being empaneled. The attorneys produced evidence to show that negroes were intelligent enough and capable to sit on the jury, and also quoted supreme court decisions in support of their motion.

Judge Reed held the matter under advisement until this morning when he announced he would overrule it. This is the first time this matter has been brought into the McCracken circuit court. It has been tested in other courts, some deciding one way and others another.

INTERESTING COMMENT ON CITY

Mr. George A. Meyer, president of the Meyer Schmid Gro. Co., St. Louis, was in the city Saturday, visiting his local house, Meyer, Schmid, Clark & Co., and in an interview with a Sun reporter, who wished to know how he was satisfied with Paducah and his house here, said: The success we have already had convinces me of the importance of your city as a distributing point. We are located at the gateway of the south.

Our shipping facilities are excellent. You have three rivers at your very door and the Father of Waters as a near neighbor, also have fair railroad facilities. We now have nine salesmen and are on the lookout for more. In fact we want all the first class salesmen we can get who can produce business for us. I believe we can handle a sales force of 20 men in territory tributary to Paducah. This is one of a string of five houses we are operating in the Mississippi valley and with advantage this gives us in the purchasing of goods and the exclusive lines we control I believe our coming here will greatly improve Paducah as a grocery market. We now sell goods out of this house in Alabama, Mississippi, Tennessee, Kentucky and Illinois, two of our salesmen being located over 200 miles from us, and are meeting with great success as to volume of business they are securing. We came to Paducah January 1, consolidating with Givens-Clark & Co., who were in business for two years and made an enviable record. But since we put in "Our Pride" line of high grade edibles, and a better assorted stock of goods than ever before carried in this market, we have shown a great increase each month. With young blood at the helm who know their business, we feel the future will bring success far beyond what we anticipated when we came here.

Mr. W. C. Clark, who is president of this house, originated the Givens-Clark & Co. business and operated it successfully for two years. Previous to this he was connected with Weeks Bros. & Co. for several years. His thorough knowledge of the business and this market is of great benefit to us. Mr. De Worthern, the treasurer, is one of our St. Louis boys who has been very successful in the grocery line and traveled for some time out of our city.

Mr. H. L. Fisher, the secretary, is a young man of exceptional business ability and has charge of the accounting department. We are well pleased with our connections and feel that within a short time we will be able to develop a business second to none in the state.

Mr. Meyer left for St. Louis last night well satisfied with his visit to Paducah. The Meyer-Schmid Grocery Co., of St. Louis, is one of the largest in the west, and their locating a branch in Paducah is an appreciation of this city's excellent shipping facilities. The business being done by the branch house already is a justification of judgment that located it here.

Ordered to Asylum.

Jane Turner of the city, a young woman of about 22 years, was this afternoon adjudged of unsound mind and was ordered taken to Hopkinsville.

She is not violent but has been in very poor health for some time, resulting in her becoming mentally unbalanced. The trial was brief and at the conclusion William English, of Marshall county, was appointed a committee to take her to the asylum.

Was Cut and Bruised.

Nettie Reynolds, age 14, an employee of the McGehee-Horton Basket company, was struck on the head by a "form," a heavy part of a machine, this morning, and her scalp cut and bruised. The injury is not serious. It was dressed by Dr. J. S. Troutman.

FINE SHOES--- MEDIUM PRICES

OUR new Spring Shoes are all in now and we are proud of the showing—just so, as you will agree when you see them. And that brings us to another point which should interest YOU. We are not afraid to have you examine our shoes, as well as "see" them. In \$3.50 shoes we have innumerable styles and a wide choice of popular leathers—patent calf, patent vici, gun metal and all the others. You can't find anything like them elsewhere in Paducah for the money.

And as for boys' and youths' shoes we lead them all. Made like men's shoes in every respect—same style, comfort and long-wearing qualities. The prices run from \$1.25 to \$3.00.

INVITED TO PREACH

REV. CALVIN THOMPSON TO VISIT THE FIRST BAPTIST CHURCH.

If Acceptable He May Be Called As Pastor of the Congregation.

Rev. Calvin Thompson, pastor of the First Baptist church at Denver, Col., a prominent western minister, will come to Paducah to preach Sunday. He is coming on trial to be considered as the successor of the late Rev. J. S. Cheek, and is at present the only minister being considered.
The matter of selecting a pastor to fill the vacancy was referred to a committee composed of deacons and several members of the congregation. The committee wrote to Rev. Thompson inviting him to come to Paducah to preach and a telegram was received this morning stating he would be here Sunday.
The committee will confer with Rev. Thompson after his sermon and if he is suitable will recommend him to the congregation. The selection is to be made by a vote of the congregation.

CONGRESS THIS WEEK.

Forecast of the Probable Doings of the Body.

Washington, April 9.—The senate will continue this week to discuss the railroad rate bill, and indications fail to support Senator Tillman's prediction that the week will witness the termination of the general debate. Conservative senators, who are opposing the house bill, are still standing out for a sweeping provision for a court of review.
Another week is to be devoted to the postoffice appropriation bill in the house of representatives. Demands for recognition will make it impossible to reach the details of the bill before Wednesday. To complete it will consume the remainder of the week.
General legislation will be suspended today that the house may sit as a city council for the District of Columbia. There is to be a general reply to the democratic tariff speeches by Col. Hepburn, of Iowa, probably on Tuesday. He will pay particular attention to the showing made last week by Mr. Rainey, of Illinois, on the question of the importation of American watch movements which had been sold abroad.

Made an Out and Out Offer.

This afternoon late the committee to which negotiations with Col. R. G. Caldwell, relative to the sale of the Longfellow school property was referred, will meet and further discuss the matter. Col. Caldwell made the committee an out and out offer for the property and it is understood the committee will recommend it to the school board. The meeting this afternoon is to further decide on the report to make the board.

Return From a Sea Cruise.

Norfolk, Va., April 9.—The gunboat Mayflower, with Mrs. Roosevelt and children aboard, arrived at a West India trip, passed in the Virginia capes today and proceeded to Washington. All on board were well.

Jumped Off Cairo I. C. Bridge.

Cairo, April 9.—C. J. Johnson, an amateur bridge jumper, leaped into the Ohio, off the I. C. bridge here, yesterday. He jumped from the height of 65 feet and landed safely.

Miss Edna Hill is out after a brief illness.

Dr. I. B. Howell, the dentist, has returned from Nashville where he had been to lecture at Vanderbilt university.

Attorney John G. Miller and wife returned at noon from San Antonio, Tex. where they had been for their health. Mrs. Miller is much improved.

THE CHURCHES

"PALM SUNDAY" OBSERVANCE YESTERDAY BY CATHOLICS AND EPISCOPALIANS.

The Revivals at Broadway M. E. and Second Baptists Being Marked With Success.

Yesterday was Palm Sunday and the day was beautifully and impressively celebrated with appropriate services.

At the St. Francis de Sales Catholic church there were services at 8 and 10 a. m. and 7:30 p. m. Branches of palms were distributed during the high mass at 10:30 a. m., as is the beautiful yearly custom. "Palms" was sung by Mr. R. D. MacMillan at this hour.

At Grace Episcopal church, Palm Sunday was observed with special services at 7:30 and 10:45 a. m. and 4:30 p. m. Holy Baptism was administered in the afternoon.

Four services were held yesterday at the Broadway Methodist church, conducted by Rev. J. B. Culpepper and son Rev. Burt Culpepper, the evangelists who are in charge of the protracted meeting there.

The services at 9:15 a. m. and 3 p. m. were especially for children and young people and were in charge of the Rev. Burt Culpepper, who is particularly adapted to this work and has created deep interest in the young people attending his services. Large crowds were present at both services.

Rev. J. B. Culpepper preached at 11 a. m. on "What Think Ye of Christ?" a fine and eloquent sermon which was attended by much feeling and interest. His sermon at night was on the subject of "Sin" and was a strong and forcible presentation of the theme. There were 50 applications for church membership made yesterday.

Services will be held this week as follows: 10 a. m., 4:15 p. m. and 7:30 p. m. A cordial invitation is given the public to attend.

The revival at the Second Baptist church is attended with increasing interest. Rev. E. B. Farrar, of Louisville, preached yesterday morning, afternoon and night to a crowded house, hundreds being turned away. So great was the interest evinced that the church is contemplating erecting a tent in which to accommodate the crowds.

There were nine additions to the church yesterday, and there have been 60 conversions so far.

Services will be held this week each day at noon at the railroad shops and at 2 p. m. at 7:15 p. m.

Rev. Gordon W. Hill, who is temporarily in charge of the First Baptist church, preached yesterday morning and night. The rite of baptism was administered after the evening service.

In the afternoon Rev. Mark Levy, a converted Jew, a native of London, England, told the story of his life and conversion at this church. It was a very interesting recital. Mr. Levy dated his first conviction from reading the New Testament, though it was some time before he left his faith. He stated that when he was en route from Australia to the United States he met the Kentucky Evangelist George O. Barnes, and it was the glimpses into the religion and life of this man and his family that made him take the decisive step. He was converted over 20 years ago, and is now in the general evangelistic work. He is a very interesting speaker, deeply in earnest.

ADD CHURCHES

The Jewish passover will begin tonight and for seven days thereafter orthodox Jews will eat only unleavened bread. This is in remembrance of the deliverance of Israel's first born from the judgment wrought on the first born of the Egyptians, and also commemorates the liberation of the Hebrews from Egyptian bondage. The beginning of the festival is at sunset this evening, the fourteenth day of the month Nisan of the Hebrew calendar, and the celebration is one of the most solemn and beautiful in the Jewish ritual.

Services will be held this evening

WASHINGTON TEAM COMING SATURDAY

First Game of The Season With "The Senators."

Some of the Paducah Players Arrived and Reported Today for Duty.

OTHERS COMING IN .DAILY

Manager Lloyd today closed arrangements with the Washington team of the American league for two games with his Indians, next Saturday and Sunday. These will be the first games of the season, and will give the local fans an opportunity to get a line on Lloyd's hopefuls for this season, and it will be taken advantage of.

Some of the players reported for duty this morning, and practice will be started at the park at once. The other players will be coming in every day now, and the ball park will be the Mecca for all true lovers of the sport from now till frost.

Manager Lloyd says he will have a far faster team than he had last year, and the fans who are close students of the game, and know all the players agree with him. However, the new teams in the league this year are unknown factors to be reckoned with, and the Indians may not have the run-a-way time they had for so long last year. It would be better for the game, too, that they should not.

The Washington team of the American league is a good organization. It played a fine article of ball last season, and the first of the season took the measure of any team that went up against it, for a while heading the league. However, sickness of the manager and some of the best players put it out of the running for so long it did not figure in the pennant race. This year the team is intact again, and the Paducah fans will see some of the best ball players in the country in the games Saturday and Sunday.

Roedel, who played left field for Vincennes the first season that town formed a part of the Kitty league, has contracted consumption and his ball playing days are over.

Roedel was a man of medium size, possible just a little heavy for his height, but had the most remarkable "wing" of any player in the league. He often threw men out at first base from left field, and the feat from throwing from deep left to home plate was a small matter with Roedel. He was a lightning fielder and during the winter won his bread by singing on the vaudeville stage. He did not play ball last year.

"Brownie" McClain and "Red" Perry, of Cincinnati, arrived last night and are ready for working out. They are both in excellent health, having experienced no illness during the winter. This makes eight players here including Lloyd and Brahe.

One remarkable and gratifying fact noticeable among the sporting writers in the Kitty league towns this season is the attitude of writers towards the players. Little fault has been found with the teams either as a whole or as individuals. This is encouraging to the managers and will help a great deal in making up strong teams. Heretofore the sporting writers have attempted to do the organizing instead of leaving that matter to the manager.

Even a little man may accomplish some big things.

At 7:30 at Temple Israel, and again tomorrow at 10 a. m. The other services will be Sunday at 7:30 p. m. and Monday at 10 a. m., the last two days of the passover.

Services for Holy Week will be observed at the St. Francis de Sales Catholic church as follows: Especial masses on Thursday, Friday and Saturday mornings. Services on Wednesday, Thursday and Friday evenings.

At Grace Episcopal church holy communion will be every morning at 10:45, except Saturday. Evening prayer and address on Tuesday and Thursday at 4:30, and Wednesday and Friday at 7:30.

Confirmation services were held yesterday morning at the German Lutheran church on South Fourth, and the rite was administered to a class of 14. The church was beautifully decorated with palms and ferns.

Services in celebration of Palm Sunday were held yesterday at the German Evangelical church on South Fifth street. Rev. Wm. Bourquin examined a class of 12 yesterday who will be confirmed next Sunday.

WHO SHE WAS

SKETCH OF THE LIFE OF LYDIA E. PINKHAM

And a True Story of How the Vegetable Compound Had Its Birth and How the "Panic of '73" Caused It to be Offered for Public Sale in Drug Stores.

This remarkable woman, whose maiden name was Estess, was born in Lynn, Mass., February 9th, 1819, coming from a good, old Quaker family. For some years she taught school, and became known as a woman of an alert

and investigating mind, an earnest seeker after knowledge, and above all, possessed of a wonderfully sympathetic nature.

In 1843 she married Isaac Pinkham, a builder and real estate operator, and their early married life was marked by prosperity and happiness. They had four children, three sons and a daughter.

In those good old fashioned days it was common for mothers to make their own home medicines from roots and herbs, nature's own remedies—calling in a physician only in specially urgent cases. By tradition and experience many of them gained a wonderful knowledge of the curative properties of the various roots and herbs.

Mrs. Pinkham took a great interest in the study of roots and herbs, their characteristics and power over disease. She maintained that just as nature so bountifully provides in the harvest fields and orchards vegetable foods of all kinds, so, if we but take the pains to find them, in the roots and herbs of the field there are remedies expressly designed to cure the various ills and weaknesses of the body, and it was her pleasure to search these out, and prepare simple and effective medicines for her own family and friends.

Chief of these was a rare combination of the choicest medicinal roots and herbs found best adapted for the cure of the ills and weaknesses peculiar to the female sex, and Lydia E. Pinkham's friends and neighbors learned that her compound relieved and cured and it became quite popular among them.

All this so far was done freely, without money and without price, as a labor of love.

But in 1873 the financial crisis struck Lynn. Its length and severity were too much for the large real estate interests of the Pinkham family, as this class of business suffered most from the fearful depression, so when the Centennial year dawned it found their property swept away. Some other source of income had to be found.

At this point Lydia E. Pinkham's Vegetable Compound was made known to the world.

The three sons and the daughter, with their mother, combined forces to

restore the family fortune. They argued that the medicine which was so good for their woman friends and neighbors was equally good for the women of the whole world.

The Pinkhams had no money, and little credit. Their first laboratory was the kitchen, where roots and herbs were steeped on the stove, gradually filling a gross of bottles. Then came the question of selling it, for always before they had given it away freely. They hired a job printer to run off some pamphlets setting forth the merits of the medicine, now called Lydia E. Pinkham's Vegetable Compound, and these were distributed by the Pinkhams sons in Boston, New York, and Brooklyn.

The wonderful curative properties of the medicine were, to a great extent, self-advertising, for whoever used it recommended it to others, and the demand gradually increased.

In 1877, by combined efforts the family had saved enough money to commence newspaper advertising and from that time the growth and success of the enterprise were assured, until today Lydia E. Pinkham and her Vegetable Compound have become household words everywhere, and many tons of roots and herbs are used annually in its manufacture.

Lydia E. Pinkham herself did not live to see the great success of this work. She passed to her reward years ago, but not till she had provided means for continuing her work as effectively as she could have done it herself.

During her long and eventful experience she was ever methodical in her work and she was always careful to preserve a record of every case that came to her attention. The case of every sick woman who applied to her for advice—and there were thousands—received careful study, and the details, including symptoms, treatment and results were recorded for future reference, and today these records, together with hundreds of thousands made since, are available to sick women the world over, and represent a vast collaboration of information regarding the treatment of woman's ills, which for authenticity and accuracy can hardly be equaled in any library in the world.

With Lydia E. Pinkham worked her daughter-in-law, the present Mrs. Pinkham. She was carefully instructed in all her hard-won knowledge, and for years she assisted her in her vast correspondence.

To her hands naturally fell the direction of the work when its original founder passed away. For nearly twenty-five years she has continued it, and nothing in the work shows when the first Lydia E. Pinkham dropped her pen, and the present Mrs. Pinkham, now the mother of a large family, took it up. With women assistants, some as capable as herself, the present Mrs. Pinkham continues this great work, and probably from the office of no other person have so many women been advised how to regain health. Sick women, this advice is "Yours for Health" freely given if you only write to ask for it.

Such is the history of Lydia E. Pinkham's Vegetable Compound; made from simple roots and herbs; the one great medicine for women's ailments, and the fitting monument to the noble woman whose name it bears.

KENTUCKY NEWSLETS

Investigating Alleged Bribery.
Frankfort, Ky., April 9.—The Franklin county grand jury has begun the investigation recommended to it by Circuit Judge Stout of alleged corruption and undue influence having been used in the rectifiers' tax fight before the regular and special session of the general assembly just closed. The editor and all employees of the Kentucky Journal, a local paper, which daily published such rumors, were before the jury yesterday. Following their testimony certain members of the assembly may be summoned here. Judge Stout talked vigorously to the jury on the subject of bribery and lobbying and told the members of it that they should indict the person guilty of the paper bringing the charge for libel.

Thorne Acting Governor.
Frankfort, Ky., April 9.—Lieutenant Governor Thorne arrived here yesterday and became acting governor during the absence of the governor at French Lick Springs, Ind. Gov. Beckham will be away for about ten days.

Took Dose of Bug Poison.
Glasgow, Ky., April 9.—Nuel Turner, the 14-year-old son of Mr. Jim Turner, who lives near Goodnight, six miles from here, in this county, died Friday night from accidental poisoning. The child, in company with several companions, was playing around the house when they found a bottle of bug poison, which the Turner child thought was whiskey. Cautioning his companions to say nothing of the find, he took two large swallows from the bottle and in a short time became deathly ill. By the time a physician reached him he was having convulsions and suffered untold agonies until death relieved him.

Arsenic Taken By Mistake.
Fulton, Ky., April 9.—A mother's mistake came near costing Miss Georgia Pierce her life Friday afternoon. Miss Pierce was sick, and her mother, Mrs. Devro Pierce, was giving her a course of paregoric. Sitting on the table by the paregoric bottle was a bottle of solution of arsenic. The two bottles looked just alike, and when Mrs. Pierce went to give her daughter a dose of paregoric she got hold of the wrong bottle and gave her a teaspoonful of "Solution of Arsenic." Several physicians were hastily summoned and within an hour's time, with the aid of a stomach pump the sufferer was relieved.

Fiends Fire Into School.
Mt. Sterling, Ky., April 9.—Ed Carpenter, white, and Bud Tibbs, colored, made an attack on Ryan school house, three miles from Flemingsburg, by firing pistol shots through the windows. There were thirty children in the room, and the plucky schoolmarm, Miss Effie Schultze, eighteen years of age, shut the doors and ordered them to lie down. She then jumped out of a window in the rear of the building and ran nearly half a mile to a farm house and telephoned to the authorities. The sheriff with a posse of twenty men, responded and landed the men in jail. A typhoid seemed certain, but cooler heads prevailed upon the crowd to let the law take its course. Carpenter and Tibbs are notorious characters.

Behind the Bars.
Lexington, Ky., April 7.—Benjamin Stewart was held to the grand jury under bail of \$5,000 Saturday on the charge of killing James Strader, the young Lexington man who died from wounds received while he was hunting ducks at Lake Ellerslie near here.

He failed to furnish the bond and was ordered to jail by Judge Bullock to await the action of the grand jury.

Absolute Divorce Without Alimony.
Hopkinsville, Ky., April 8.—Maj. Cyrus C. Radford, of the United States navy, was granted an absolute divorce from his wife, Florence R. Radford, with a discontinuance of alimony. The couple were separated five years ago, and Maj. Radford was granted a divorce about three years ago with alimony. The suit was for a final adjudication, the former wife suing for further alimony. The court's decision stops all alimony and makes the divorce absolute. Mrs. Radford now lives in New York City, and Maj. Radford, whose home is in this county, is stationed at Philadelphia.

Watch Found on Historic Ground.
Paris, Ky., April 9.—While walking over the historic old Blue Licks battlefield, near Blue Lick Springs, in Nicholas county, Robert Abnee found a watch embedded in the leaves and soil, where it had evidently lain for many years. Expert watchmakers who examined the timepiece say they are positive that there has not been a watch of similar pattern manufactured in the past one hundred and fifty years. The old timepiece is in excellent condition and registers time accurately. The watch is of English make. It is thought likely that it was lost by some visitor to the springs.

Handsome New School House.
Murray, Ky., April 9.—The contract to build the new school house was let last Saturday. Jim Hicks and George Aycock got the contract at \$16,140. This is to be a handsome structure in every respect.

MARSHAL SOULT.

English Views of the Famous Lieutenant of Napoleon.

"When I had Sout as my opponent I could eat, drink and amuse myself without fear of being surprised. It was not that he failed to be a great commander. He was wonderful in his way; he knew how to collect 100,000 men at a fixed point on a fixed date, but when he had collected them he never knew the least in the world what to do with them."

So said Wellington, and on this occasion he actually ate Sout's dinner, which was in course of preparation for him. But, though the capture of the French marshal seemed inevitable, he was already "beyond the toils, having by a supreme effort extricated himself from perils as fearful as ever beset a general."

It was a masterly retreat, and throughout it he was not only watching for the best advantages to be gained, but testing the spirit of his men. His hand was almost on their pulses, his eye was ever watchful, and suddenly, by a stroke almost theatrical in its effect, he "drew up the troops, 20,000 in number, on the position he had occupied two months before at the battle of Braga," thus rousing the spirits of his soldiers.

He continued the retreat, facing every difficulty of country and weather, but never deterred, and finally crossed the Cavado "in full time, for the English guns were thundering on the rear."

He had lost about 5,000 men; he had entered Portugal with fifty-eight pieces of artillery; he returned without a gun.—Colonel J. Hanbury Williams, C. V. O., C. M. G., in Blackwood's Magazine.

THE NAMES HE USED.

They Helped to Sell the Wonderful Works of Whistler.

Though the peculiar nomenclature Whistler adopted for the output of his brush and needle inevitably in its novelty excited ridicule and censure and was surely adopted, just as his hirsutous oriframb was carefully cultivated, mainly as an advertisement to attract the custom of the hunter after art novelties and art bargains even as his wand and flat brimmed hat were assumed to mark him out to "the man in the street," there is no little to be said in favor of such nomenclature by those who recognize the sisterhood of the various fine arts. Whistler's early days were passed in an atmosphere of music, and, apart from the masterful craving of erratic genius for novelty and his appreciation on reaching manhood and looking forth on the world of the value of new processes in systematic self-advertising, it was therefore not unnatural that he should use musical terminology in giving titles to the output of his work in graphic art. Why should he not speak of that work as symphonies or harmonies in white, in green, in blue, in gray or what not? Why should the word "arrangement" be confined to musical notes? Is not what is perhaps his masterpiece, his mother's portrait, really and truly, as children say, an "arrangement" in black and gray?—Critic.

Cause of Nosebleed.

In weak persons bleeding at the nose is frequently hurtful and should be stopped without delay, as continued hemorrhage may prove fatal if neglected.

Those who suffer from poorness of blood or anemia and are sometimes seized with violent nosebleeds should avoid as far as possible anything which may tend to bring it on. Gentle exercise only should be taken, as violent bodily movements may provoke a repetition of the hemorrhage. Even running downstairs hastily should be avoided. Bleeding at the nose is usually a sign that something is wrong with the system. The cause should, if possible, be discovered and steps taken to remove it.

"Survival of the Fittest."

In Ireland from time immemorial candidates for political honors have had to cope not only with Irish brains, but with the noble Irish oak in the shape of a shillalah, a fact which illuminates a reminiscence of Galway, found in Blackwood's Magazine. When George IV. visited Ireland an election for Galway was pending. The king inquired of a Galway gentleman who came up to Dublin to attend his levee which candidate would probably be returned.

"The survivor, sir," replied the gentleman.

Exceptions.

Hardy—She may be well educated, as you say, but she uses very singular expressions. Tardy—She does? Hardy—Yes. Yesterday, for instance, she spoke of a musical concert. Tardy—Wasn't that correct? Hardy—Certainly not. It wasn't necessary to say "musical" in speaking of a concert. A concert must be musical. Tardy—Must, eh? Well, I've been to some that were not.

CALLOWAY CIRCUIT COURT.

Court Today at Murray, but no Court House or Records.

Calloway circuit court convened this morning at Murray, Calloway county, but there was no court house and very few records to work in. Judge Thomas Cook started in this morning to rebuild the judiciary department of Calloway county, and will have a long and hard pull, of course.

The court house at Murray burned Tuesday night, the 30th, and all save a few records were destroyed with the building. The only way the records can be replaced is by a vigorous canvass of the legal profession practicing in that court, and it will require months to replace those records which are of the most importance.

The criminal department will be comparatively little affected by the fire, but the civil cases will be hopelessly tangled for years to come.

Thins His Water.

The Capitol guide was telling two New England school teachers in the senate gallery interesting things about the senators below.

"There are several of them," he said, "that have eaten too many society dinners and drunk too much firewater."

"Oh, how dreadful in our public men," said one of the teachers. "But there is handsome Senator Lodge. He doesn't drink, does he?" "Oh, no," replied the guide, "He is a teetotaler. He even thins his water."

A Young Mother At 70.

"My mother has suddenly been made young at 70. THE SPENDERS

A TALE OF THE THIRD GENERATION

By HARRY LEON WILSON

Copyright by Lethrop Publishing Company.

It appeared that Percival had been right in supposing that Mrs. Dreimer might be led to regard Psyche's proposal in a light entirely rational. She was reluctant, at first, it is true.

"It's awfully dear of you to ask me, child, but really, I'm afraid it will be quite impossible. Oh!—for reasons which you, of course, with your endless bank account, cannot at all comprehend. You see we old New York families have a secure position here by right of birth; and even when we are forced to practice little economies in dress and household management it doesn't count against us—so long as we stay here. Now, Newport is different. One cannot economize gracefully there—not even one of us. There are quiet and very decent places for those of us must. But at Newport one must not fall behind in display. A sense of loyalty to the others, a noble obligation, compels one to be as lavish as those flamboyant outsiders who go there. One doesn't want them to report, you know, that such and such families of our smart set are falling behind for lack of means. So, while we of the real stock are chummy enough here, where there are only us in a position to observe ourselves, there is a sort of tacit agreement that only those shall go to Newport who are able to keep up the pace. One need not, for one season or so, be a cottager; but, for example, in the matter of dress, one must be suitably lavish. Really, child, I could spend three months in the Engadine for the price of one decent month at Newport; the parasols, gloves, fans, shoes, 'frillies'—enough to stock the Rue de la Paix, to say nothing of gowns—but why do I run on? Here am I with a few simple summer things, fit enough indeed for the quiet place we shall reach for July and August, but ab-so-lute-ly impossible for Newport—so say no more about it, dear. You're a sweet—but it's madness to think of it."

"And I had," reported Psyche to her mother that night, "such a time getting her to agree. At first she wouldn't listen at all. Then, after I'd just fairly begged her, she admitted she might because she's taken such a fancy to me and hates to leave me—but she was sensitive about what people might say. I told her they'd never have a chance to say a word; and she was anxious Percy should know, because she says he's so cynical about New York people since that Milbrey girl made such a set for him; and at last she called me a dear and consented, though she'd been looking forward to a quiet summer. To-morrow early we start out for the shops."

So it came that the three members of the Bines family pursued during the summer their respective careers of diversion under conditions most satisfactory to each.

The steam yacht Viluca, chartered by Percival, was put into commission early in June. Her first cruise of ten days was a signal triumph. His eight guests were the men with whom he had played poker so tirelessly during the winter. Perhaps the most illuminating log of that cruise may be found in the reply of one of them whom Percival invited for another early in July. "Much obliged, old man, but I haven't touched a drop now in over three weeks. My doctor says I must let it be for at least two months, and I mean to stick by him. Awfully kind of you, though!"

CHAPTER XV.

THE SIGHT OF A NEW BEAUTY, AND SOME ADVICE FROM HIGBEE.

In from the shining sea late one afternoon steamed the Viluca. As her chain was rattling through the hawse-hole, Percival, with his sister and Mauburn, came on deck.

"Why, there's the Chicago—Higbee's yacht."

"That's the boat," said Mauburn, "that's been piling the white water up in front of her all afternoon trying to overhaul us."

"There's Millie Higbee and old Silas, now."

"And, as I live," exclaimed Psyche, "there's the Baron de Palliac between them!"

"Sure enough," said her brother. "We must call ma up to see him dressed in those sweet, pretty yachting flannels. Oh, there you are!" as Mrs. Bines joined them. "Just take this glass and treat yourself to a look at your old friend, the baron. You'll notice he has one on—see—they're waving to us."

"Doesn't the baron look just too distinguished beside Mr. Higbee?" said Psyche, watching them.

"And doesn't Higbee look just too Chicago beside the baron?" replied her brother.

The Higbee craft cut her way gracefully up to an anchorage near the Viluca, and launches from both yachts now prepared to land their people.

At the landing Percival telephoned for a carriage. While they were waiting the Higbee party came ashore.

"Hello!" said Higbee, "if I'd known that was you we were chasing I'd have put on steam and left you out of sight."

"It's much better you didn't recognize us; these boiler explosions are so messy."

"Know the baron here?"

"Of course we know the baron. Ah, baron!"

"Ah, ha! very charming, Mr. Bines and Miss Bines; it is of a long time that we are not encountered."

He was radiant; they had never before seen him thus. Mrs. Higbee hovered near him with an air of proud ownership. Pretty Millie Higbee posed gracefully at his side.

"This your carriage?" asked Higbee; "I must telephone for one myself. Go—"

"There's the baron."

"Looks as if there were something doing there," said Percival, as they drove off the wharf.

"Of course, stupid!" said his sister; "that's plain; only it isn't doing, it's already done. Isn't it funny, ma?"

"For a French person," observed Mrs. Bines, guardedly, "I always liked the baron."

"Of course," said her son, to Mauburn's mystification, "and the noblest men on this earth have to wear 'em."

The surmise regarding the Baron de Palliac and Millie Higbee proved to be correct. Percival came upon Higbee in the meditative enjoyment of his after-dinner cigar, out on the broad piazza.

"I s'pose you're on," he began; "the girl's engaged to that Frenchy?"

"I congratulate him," said Percival, heartily.

"A real baron," continued Higbee. "I looked him up and made sure of that; title's good as wheat. God knows that never would 'a' got me, but the madam was set on it, and the girl, too, and I had to give in. It seemed to be a question of him or some actor. The madam said I'd had my way about Hank, putting his poor stubby nose to the grindstone out there in Chicago, and making a plain insignificant business man out of him, and I'd ought to let her have her way with the girl, being that I couldn't expect her to go to work, too. So Millie will work the society end. I says to the madam, I says: 'All right, have your own way; and we'll see whether you make more out of the girl than I make out of the boy.' I says. But it ain't going to be all digging up. I've made the baron promise to go into business with me, and though I ain't told him yet, I'm going to put out a line of Higbee's thin-sliced ham and bacon in glass jars with his crest on 'em for the French trade. This baron'll cost me more'n that sign I showed you coming out of the old town, and he won't give any such returns, but the crest on them jars, printed in three colors and gold, will be a bully ad.; and it kept the women quiet," he concluded, apologetically.

"The baron's a good fellow," said Percival.

"Sure," replied Higbee. "They're all good fellows. Hank had the makin' of 'em."

"That's the boat," said Mauburn, "that's been piling the white water up in front of her all afternoon trying to overhaul us."

"There's Millie Higbee and old Silas, now."

"I s'pose you're on," he began; "the girl's engaged to that Frenchy?"

"I congratulate him," said Percival, heartily.

"A real baron," continued Higbee. "I looked him up and made sure of that; title's good as wheat. God knows that never would 'a' got me, but the madam was set on it, and the girl, too, and I had to give in. It seemed to be a question of him or some actor. The madam said I'd had my way about Hank, putting his poor stubby nose to the grindstone out there in Chicago, and making a plain insignificant business man out of him, and I'd ought to let her have her way with the girl, being that I couldn't expect her to go to work, too. So Millie will work the society end. I says to the madam, I says: 'All right, have your own way; and we'll see whether you make more out of the girl than I make out of the boy.' I says. But it ain't going to be all digging up. I've made the baron promise to go into business with me, and though I ain't told him yet, I'm going to put out a line of Higbee's thin-sliced ham and bacon in glass jars with his crest on 'em for the French trade. This baron'll cost me more'n that sign I showed you coming out of the old town, and he won't give any such returns, but the crest on them jars, printed in three colors and gold, will be a bully ad.; and it kept the women quiet," he concluded, apologetically.

"The baron's a good fellow," said Percival.

"Sure," replied Higbee. "They're all good fellows. Hank had the makin' of 'em."

"That's the boat," said Mauburn, "that's been piling the white water up in front of her all afternoon trying to overhaul us."

"There's Millie Higbee and old Silas, now."

"And, as I live," exclaimed Psyche, "there's the Baron de Palliac between them!"

"Sure enough," said her brother. "We must call ma up to see him dressed in those sweet, pretty yachting flannels. Oh, there you are!" as Mrs. Bines joined them. "Just take this glass and treat yourself to a look at your old friend, the baron. You'll notice he has one on—see—they're waving to us."

"Doesn't the baron look just too distinguished beside Mr. Higbee?" said Psyche, watching them.

"And doesn't Higbee look just too Chicago beside the baron?" replied her brother.

The Higbee craft cut her way gracefully up to an anchorage near the Viluca, and launches from both yachts now prepared to land their people.

At the landing Percival telephoned for a carriage. While they were waiting the Higbee party came ashore.

"Hello!" said Higbee, "if I'd known that was you we were chasing I'd have put on steam and left you out of sight."

"It's much better you didn't recognize us; these boiler explosions are so messy."

"Know the baron here?"

"Of course we know the baron. Ah, baron!"

"Ah, ha! very charming, Mr. Bines and Miss Bines; it is of a long time that we are not encountered."

He was radiant; they had never before seen him thus. Mrs. Higbee hovered near him with an air of proud ownership. Pretty Millie Higbee posed gracefully at his side.

"This your carriage?" asked Higbee; "I must telephone for one myself. Go—"

"There's the baron."

"Looks as if there were something doing there," said Percival, as they drove off the wharf.

"Of course, stupid!" said his sister; "that's plain; only it isn't doing, it's already done. Isn't it funny, ma?"

"For a French person," observed Mrs. Bines, guardedly, "I always liked the baron."

"Of course," said her son, to Mauburn's mystification, "and the noblest men on this earth have to wear 'em."

The surmise regarding the Baron de Palliac and Millie Higbee proved to be correct. Percival came upon Higbee in the meditative enjoyment of his after-dinner cigar, out on the broad piazza.

"I s'pose you're on," he began; "the girl's engaged to that Frenchy?"

"I congratulate him," said Percival, heartily.

"A real baron," continued Higbee. "I looked him up and made sure of that; title's good as wheat. YOUNG MACHINIST PAINFULLY HURT

(Continued From Page One.)

about her position, and when one railroader finally found tongue to reply, called inside to companions.

"Come on out you sleepy heads we are in Paducah," and with this pushed the door open wider and jumped to the ground.

It was a sure enough woman hobo but she was dressed better than would be expected. Four more piled out of the car and the five gathered what few bundles they had and started down the track towards Broadway.

The railroaders were too startled to attempt to detain them and they were permitted to go their way. The matter was reported to Special Policeman Dick Tolbert, but he was unable to secure any definite information.

The women, from the description given, were young and two were of more than ordinarily attractive. They said little, not even inquiring the way to the principal thoroughfare, but seemed to enjoy the sensation they had created among the car repairers.

Looking After Water Supply.

Mr. Clarence Knowles, superintendent of water supply of the Louisville division of the I. C., went up the division this morning on business.

Mr. Knowles has a great deal of improvement work in his department to do this spring, and some of it is in Paducah. A complete change up of hydrants at the freight depot is being made here and other repairs of a minor nature will be made also.

There are several water tanks to be built between Paducah and Louisville, but authority for the improvements has not come yet.

Beautifying Grounds.

The square adjoining the N. C. & St. L. depot has been fenced in, and many young trees set out, the railroad company intending to make a park out of the place.

Fertilizer is being spread on the ground and the place will be thoroughly worked this summer and with in a year or two will be one of the prettiest spots in the city.

Piling Out of Place.

The I. C. transfer steamer DeKoven is unable to transfer trains on account of several clusters of piling being down on the Brookport side. The pile driver was taken across to-day and is driving new piling. By tomorrow the boat will be able to land and transfer boats. Passengers are being transferred from train to boat with baggage express matter and mail, at present.

Carmen Meet Tonight.

The Brotherhood of Railway Carmen will meet tonight in regular session and 11 applicants for membership will be initiated.

Hurt by Falling.

Rufus Rainey, an employee of the local I. C. planing mill, fell down this morning while running with a hose reel during the I. C. fire department practice, and severely wrenched his right ankle. He stumbled on the rails while crossing the tracks. The injury is not serious but will lay him off duty for several days.

PILING UP CHARGES.

Church Officers Preparing to Make It Warm for Dowie.

Chicago, April 9.—While John Alexander Dowie is traveling from Mexico to Zion City measures are being taken by the officers of the Zion church to render him absolutely powerless before he can arrive among them. It is asserted that by the time he reaches Zion City the last vestige of his authority will have disappeared except insofar as he may restore it through legal proceedings.

Three hundred officers of the church have signed a statement upholding General Overseer Voliva in his fight against the "first Apostle." Each member of the Zion City community will tomorrow be asked to swear allegiance to the present officers of the church, and at the mass meeting which is to be held in the afternoon all of the people will be asked to put their signatures to a document renouncing their former leader. Together with this action Overseer Voliva has declared that he will announce in detail the alleged misappropriation by Dowie of funds aggregating \$2,529,000.

IS TO RETURN TO CITY.

Young Man Who Left Under Fright Will Come Back.

G. E. Wilson, who was indicted for alleged false swearing, will return to Paducah to engage in business, arriving about the 15th of the month.

The young man was formerly an agent for a Lexington Insurance Co. and while in litigation in a magistrate's court became confused and swore to several facts and later contradicted himself. He was indicted, but skipped his bond. The commonwealth attorney investigated the matter and found that Wilson did not wilfully and intentionally swear falsely, and recommended that the indictment be filed away. It was and will not be re-instated, it is said.

Wilson is a well known young man and was a victim of "court fright," which probably made him testify as he did. He intends to start up in business in Paducah within a few weeks after arrival.

NOVEL WAY TO KEEP THEM.

Policeman Snips Buttons From the Trousers of Tramps.

Cleveland, April 9.—Capt. Bever, of the Erie railroad police, captured twenty-four tramps. They were arraigned in police court and Judge Whelan gave them twenty-four hours in which to leave Cleveland.

Bever found the twenty-four hobos in a box car and with a revolver lined them up.

"About face!" ordered Bever, and the twenty-four turned their backs.

"I'm sorry to do it," he said as he pulled out a large pocket knife and snipped off the trousers' buttons of every one, "but I can't take a chance of having you run away."

Down went twenty-four pairs of hands into twenty-four pairs of pockets as the twenty-four prisoners felt their buttons snipped away.

"I didn't lost a man all the way to the station," Capt. Bever told Judge Whelan. "I kept them so busy keeping their trousers on, they did not think of trying to escape."

Attention, Veterans of Forrest's Cavalry Corps!

Headquarters Forrest's Cavalry Corps, Hickman, Ky., March 23, 1906:—

I. By an article of our organization every soldier of any and all arms of service who at any time during the war served under Gen. N. B. Forrest and remained true and faithful to the cause unto the end is entitled to recognition and membership in the corps.

II. All field and company officers now living are hereby reappointed to the same positions, with same rank, as held by them at the close of the war, and are hereby directed to at once notify every member of their old commands to meet them in New Orleans, April 25th, 26th and 27th.

III. Officers and members of this corps are hereby notified to assemble in the Washington Artillery hall, New Orleans, at 10 a. m., April 26th, and attend a business meeting of the corps.

IV. All officers and members are requested to register at said building on the 26th, and to those so registering a beautiful souvenir metal badge will be given, suitable to be worn on all occasions as a badge of honor. By order of

Fighting the Mosquito.

The director of the Breslau hygienic institute has announced the results of his mosquito war experiments. The first object was to destroy the egg-bearing females, which were found in large numbers in Breslau cellars. Fumigation was used, and the number falling on the papers placed on the floors often ran up to more than 2,000 mosquitoes. To destroy the larvae in pools of water fifty grains of "larvicide" was put into a cubic metre of water and poured into the pool. This kills all the larvae within half an hour, but does not harm frogs and fish. To destroy the pupae is another question which will receive attention from now on. Breslau seems to be the first city in Europe to make a systematic war against this plague, and other German cities suffering from mosquitoes are preparing to imitate its plans.

Wants a Report.

Washington, April 9.—Comptroller of the currency this morning issued a call for a report of the condition of the national banks at the close of business April 6.

History of Our Cent.

The cent was first proposed by our own Robert Morris, the great financier of the revolution, and was named by Jefferson two years after. It began to make its appearance from the mint in 1792. It bore the head of Washington on one side and 13 links on the other. The French revolution soon created a rage for French ideas in America, which put on the cent—instead of the head of the Goddess of Liberty—a French liberty, with neck thrust forward and flowing locks. The chain on the reverse side was displaced by the olive branch of peace, but the French liberty was short lived and so was the portrait on our cent. The next head or figure that succeeded this—the staid classic dame with a fillet around her hair—came into fashion about 30 or 40 years ago, and her finely chiseled Grecian features have been but slightly altered by the lapse of time.

A Cornfield Lawyer.

No phrase which Senator Tillman has used recently has evoked more comment than his characterization of himself as a "cornfield lawyer." This is a racy way of disparaging his own abilities. Mariners have their "sea lawyers," who are usually very disputatious persons called "lawyers" because they are glib talkers and given to wordy arguments. At the White House, it is stated, Mr. Tillman's phrase was received with expressions of delight. President Roosevelt thinks it will live—and possibly it will.—Baltimore Sun.

An Old Cairoite Dead.

Cairo, Ill., April 9.—Word was received yesterday by H. A. Hannon, of this city, of the death of B. F. Parker at a sanitarium in Milwaukee, on April 3d. He had been there some time under treatment for paralysis. He was 71 years old. The deceased left Cairo in 1885 for Chicago, after a continuous residence here since 1857. He was for many years a leading business man of Cairo.

Peculiar Coincidence.

Suspicious—"Very peculiar coincidence," said the lat poet, as he opened the big envelope.

"What is that?" asked the brother bard.

"Why, some weeks ago I sent the editor of the Whopem Magazine a poem entitled 'The old Mint Julep.'"

"Did he accept it?"

"Yes, but when I sent him another poem the other day he returned it with the following message: 'We accepted your first poem; but now we are full.'"

An ordinance prescribing and regulating the number of policemen and police officers on the police force in the city of Paducah, Kentucky.

Be it ordained by the general council of the city of Paducah, Kentucky:

Section 1. That from and after the passage, approval and publication of this ordinance, the number of policemen on the Paducah Police Force shall not exceed eighteen (18) men; but there shall be in addition thereto, one Chief of Police, one Captain of Police and one Lieutenant of Police.

Section 2. That the action of the General Council of the City of Paducah granting to the Police and Fire Commissioners power to appoint two detectives as members of the Paducah Police Force, passed by motion before the Board of Councilmen November 21st, 1904, and concurred in by the Board of Aldermen November 25th, 1904, be and the same is hereby revoked, rescinded and repealed.

Section 3. That all ordinances and parts of ordinances in conflict herewith in so far as they conflict herewith are hereby repealed.

Section 4. That this ordinance shall take effect from and after its passage, approval and publication.

A Horse of Another Color.

A well known society woman had, among other guests, a man whose greatest pride is in his stables. Knowing of this and wishing to pay him some little compliment on his recent track successes, the hostess directed that ice be molded into the form of horse heads, and there was also brought on a group of horses made from the same material.

"That, I suppose," one of the guests remarked, pointing to the group, "is the chef's cheval de bataille."

"Oh, no," another laughed; "his chevaux de frise!"—Harper's Weekly.

Androns.

In regard to androns a writer in the Connoisseur points out the curious fact that the older specimens rarely come in pairs, but are of different heights and sizes. It was the custom in the middle ages, it seems, to make them uneven so as to facilitate the moving and raising of the huge blocks employed for firewood. He continues:

In the middle ages they were also planned to hold a spit, and it was not until the late sixteenth century that they were much ornamented. According to Viollet le Duc, since the most remote ages, from Etruscan times down to the Romans, such androns were made of iron. Vasari speaks of androns made with "meravigliosa maestria" for the captains of the Arte della Seta, but I have not found much ornamentation upon them as early as he says. I have a theory of my own, which is contrary to that of Viollet le Duc. In England androns are called fire dogs, and in the Bargello there is a splendid specimen made in the form of crouching hounds. I hold that the androns were in the first instance made in the shape of animals lying at rest, shaped of clay or stone, and it was much later that they were made of iron, when they often ended in animals' heads, most often in that of dogs.

Advertising a Novel.

In a New York literary club two novelists were discussing a novel of the eighties and of which 60,000 copies had been sold.

"It was," said the older man, "the best piece of advertising I ever heard of, for it was advertising, not merit, that made the book popular."

"The author has a millionaire bachelor friend—call him Millions—and he persuaded Millions to let him write for a newspaper a paragraph to the effect that the novel's heroine had made a hit with him, and if he could find anywhere a girl resembling her he would marry her."

"This paragraph duly appeared. It was copied all over the country. The young women of America, on fire with curiosity and hope, bought and read the book in order to see if they stood any chance with Millions."

The younger novelist took out his notebook.

"By Jove," he muttered, "it wouldn't hurt to resurrect that scheme."

To Tan Fur Skins.

A formula often used to tan skins with hair or fur on is this: Wash the skin and scrape off any flesh that may be sticking to it. Then wash the hair side with water and soap and rinse well. Take one pound each of salt and pulverized alum, two ounces of borax dissolved in hot water, add enough rye meal (cornmeal may answer as well) to make a thick paste and spread all over flesh side. Then fold lengthwise, with the hair side out. Let remain two weeks in an airy but shaded place; then unfold, shake well and wash flesh side with water and scrape with some sort of dull scraper. Pull and stretch and work till dry. The quantity of ingredients must be in the proportions given, but the size of the skin must determine the quantity used. The quantities named probably would be enough for two or three sheepskins.—St. Louis Republic.

Currents.

Currents are really little grapes, quite without seeds, having thin skins and very sweet. They have been known from very ancient times, for the name itself is a corruption of "Corinth," the Greek city where they were originally cultivated. Vines produce no fruit for three years after planting, but in the fourth year there is a small crop, which increases up to the twelfth. Those grown in the island of Zante are most esteemed. Currents are simply dried in the sun on the ground and then packed for shipment. In some parts of Greece they are also made into a sweet wine.

Norway in Scotland.

Few people are aware of the fact that the Orkney and Shetland islands, strictly speaking, belong to the kingdom of Norway. Toward the close of the fifteenth century King Christian of Norway pledged the Orkneys and the Shetlands, over which his rule was undisputed, to King James III. of Scotland for the payment of the dowry of his daughter Margaret, who became queen of Scotland. The pledge has not yet been redeemed.

Begging.

A man on being accosted by a beggar said: "Why don't you go to work? Why do you waste your time begging?" The beggar drew himself up. "Did you ever beg?" he said. "No, of course not," said the man. "Then," said the beggar, "you don't know what work is."

Easy English.

"Ah, your language! Let us see how difficult."

"What's the matter, count?"

"First, zis novel eet say ze man was unhorsed."

"Yes?"

"Zen it say he was cowed."

Marked.

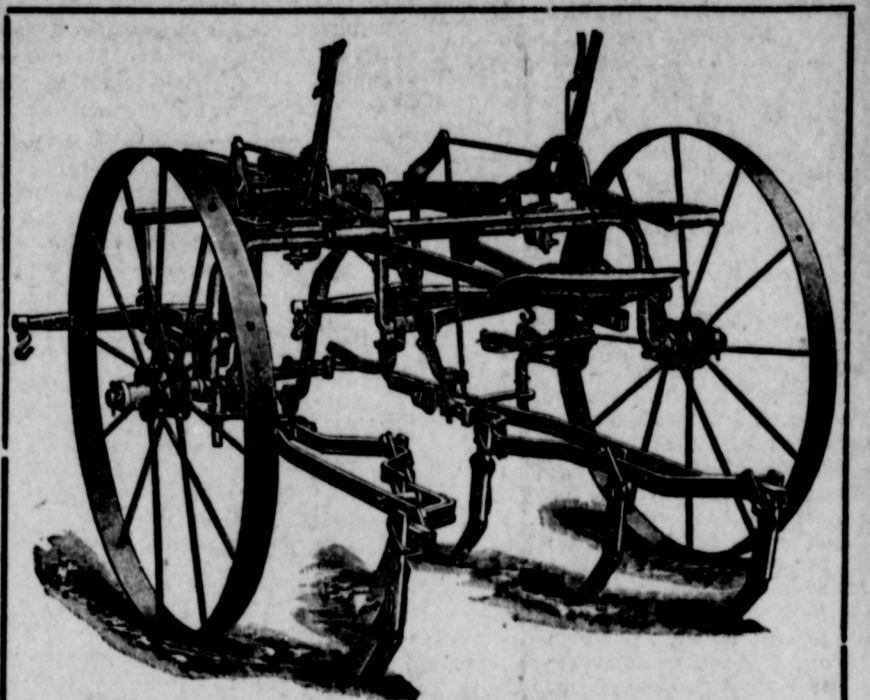

"His attentions to you have been marked, have they not?" said the young woman's experienced friend.

"Oh, yes. He has never taken the price ticket off any of his presents."

Precisely.
